# WELCOME

Welcome to Emma Durrant Floristry, Weddings & Events!

Thank you for showing interest in our services. My name is Emma, but you can call me Em. As an artificial florist, wedding/event planner, designer, and all-around creative, I am dedicated to providing high-end services for weddings and events.

At Emma Durrant Floristry, Weddings & Events, I am the sole proprietor.

My philosophy is simple: dream big! Imagine your ideal flowers and wedding style, and together we can make those dreams a reality. With 14 years of experience in the wedding industry, I understand how important your special day is to you. I am here to help you create a luxurious and unforgettable experience, and that is why I offer a range of services, including:

- Floristry Services
- Wedding Planning: Full, Partial, and 6-Week Run-Up Services
- Daytime Coordination Services
- Christmas Decor Packages
- Design

At Emma Durrant Floristry, Weddings & Events, we understand that large flower displays may not be everyone's preference, or they may not fit within their budget. That is why we offer more reserved flower arrangement designs to cater to all needs.

Whether you require a Wedding/Event Planner or an Artificial Florist, we have got you covered. With our services, you can sit back, relax, and enjoy your special day without any worries. As a wedding planner, I will ensure that your guests and suppliers are in the right place at the right time, making sure that your day runs smoothly.

Thank you again for considering our services. Let's work together to make your event a success!

## Emma Durrant Floristry: How it Works

Here's what you need to know about our florals and services:

- For sustainability reasons, we prefer to hire out our florals, but purchasing them is also an option.
- We recommend hiring our florals as it can be difficult to find a place for them afterwards. Also we reuse our flowers to reduce waste and help the environment.
- We create a mood board for your wedding to ensure we're on the same page regarding your vision. You can add pins to this if you'd like. It's a design process that we hope you'll enjoy.
- We need to know when we can get into the venue to dress it, so please book the venue as soon as possible. This information is vital to our planning as we can't put up a lot of florals in a short amount of time.
- Depending on the amount of florals you order, we can deliver and set up, or post them to you as they're artificial.
- After a no-obligation Zoom meeting, we can provide you with a quote and determine if we're the right fit for your needs.

For more information on our wedding planning services, please refer to the Wedding Planning section of our brochure.

Let's schedule a Zoom meeting to discuss your needs.

Warm regards,  
Em :)

# WE ARE SUSTAINABLE

*You Are Welcome to You Join Us!*

Emma Durrant Floristry: The Eco-Friendly Choice for Your Wedding or Event Florals

We're not your average florist – we take pride in preserving the environment and minimizing waste whenever possible. Here are a few reasons why we stand out from other floral vendors:

- **No Floral Foam:** Instead of using synthetic, non-biodegradable floral foam, we opt for a more eco-friendly alternative called Agra Wool. It's biodegradable, non-toxic, and can be composted or reused.
- **Reusable Decor:** We offer rental options for our florals and decor items, which means they're being recycled and reused instead of being thrown away.
- **Waste Not, Want Not:** We keep everything we use in our business, such as Agra Wool and wire stems, for future use. This reduces waste and ensures that we're making the most of our materials.
- **Sustainable Vases:** We also offer rental options for our vases, stands, and other decor items, which allows us to use them again and again.

We understand that it's not always easy to be environmentally conscious when the products you need aren't eco-friendly. However, by choosing us, you're making the right choice for your wedding day, event and for the planet. Our products are not only beautiful and realistic, but also sustainable. If you have any questions about our sustainability practices or want to learn more, feel free to ask us.

WELCOME
